STRATEGIC PARTNERSHIPS IN THE YOUTH FIELD

Strategic Partnerships in the youth field are long-term transnational projects that enhance the development and implementation of innovative practice or tools in youth work, and promote cooperation and exchange of experience at European level. The projects aim at increasing the quality and outreach of youth work on the one hand, and at the empowerment and participation of young people on the other hand. To reach these aims, partnerships can be formed with stakeholders from various educational and socio-economic sectors.

Erasmus+ is the European Union's programme for boosting skills and employability through activities organised in the field of education, training, youth, and sport. Youth activities under Erasmus+ aim to improve the key competences, skills and employability of young people, promote young people's social inclusion and well-being, and foster improvements in youth work and youth policy at local, national and international level.
